Here are a few tips on how to get the best out of your recording session.

1. **Pick a song that you are comfortable with and know well.**
2. **Make sure the song is within your vocal range.** (We can help you determine this if you are unsure).
3. **Pick a backup song.** (Just in case you decide your original choice is unsuitable).
4. **Relax and have fun.** (We will explain the whole process as we go).
5. **Remember you will also be having your photo taken** (so come prepared).
6. **Don't forget the lyrics!**
